

**CONFLICT OF INTEREST DISCLOSURE AND
EQUITABLE AND FAIR BALANCE AGREEMENT**

As a speaker and/or continuing education faculty member, I will:

- (a) ‘Meaningfully disclose’ any relevant interests that may affect the content of the educational activity being offered.
- (b) Identify and resolve all conflicts of interest prior to the educational activity being delivered to learners.
- (c) Ensure the content of the educational activity will give a balanced view of therapeutic options to promote improvements or quality in healthcare and not specific proprietary business interests of a commercial interest.

Balanced view means that recommendations or emphasis must fairly represent, and be based on, a reasonable view and valid interpretation of the information available in the subject and that no single product or service is over represented in the educational activity when other equal but competing products or services are available for inclusion.
